

Request for Comments

The New Jersey Board of Public Utilities is announcing a Request for Comments on the report recently released by Lawrence Berkeley Laboratory, "Shaking Up the Residential PV Market: Implications of Recent Changes to the ITC."

(URL: <http://eetd.lbl.gov/ea/ems/cases/res-itc-report.pdf>)

The report analyzes the potential impacts of new federal provisions that provide residential solar energy systems with an uncapped investment tax credit of 30% of system costs.

The Board of Public Utilities is considering policies in response to these ITC changes, and is requesting stakeholder input **by close of business Friday December 12**, so that it can be incorporated into 2009 Renewable Energy Program Plans.

The deadline for providing comments is Friday, December 12, 5:00 p.m. Please send comments to: oce@bpu.state.nj.us

Thank you.
