

# Annual Net Metering Report

June 2007

Rockland Electric Company

**Rockland Electric Company**

**Annual Net Metering Report**

**June 2007**

**1. The total number of customer-generator facilities**

For the one-year period ending May 31, 2007, Rockland Electric Company (the "Company") has twenty-eight customer-generator facilities.

**2. The total estimated rated generating capacity of its net metering customer-generators**

The total estimated rated generating capacity of its net metering customer-generators is 805.5 kW.

**3. The total estimated net kilowatt-hours received from customer-generators**

The total net kilowatt-hours received from customer-generators for the one-year period ending May 31, 2007 is zero kilowatt-hours. The net energy usage by these customer-generators for the one-year period ending May 31, 2007 is 3,120,034 kilowatt-hours.

**4. The total estimated amount of energy produced by the customer-generators**

Since the generators of the net metering customers are not separately metered (the meter is located at the customer's service entrance), the Company cannot determine the amount of energy produced by these customer-generators.
